Dick Park, CVS

Dear Dick;

Thank you for your work in providing the article for the Apr/June 1980 Value World.

I have long wanted the Value World publication to be a masterpiece of teaching and communication of VAE technology and useful repeatable experience. Your article "hit the nail on the head". Of course I am much honored that you believe as I do, effectively quoted me, and provided a very valuable piece of "teaching".

Best of success to you and your family and associates,

Sincerely,

Larry Miles

From the Desk of...

9 5 80 Larry Miles

Of very very minor importance, as compared to the fine article, but for your information - in case you need it. -

On page 4 - bottom of the page -
my first book is listed - 1961.

Actually the material which you used
so effectively, came from the re-
vised edition of 1972.

Best to you,

Larry
