Oct 23, 1973

To the National Meeting of the Society of Japanese Value Engineers;

To my Associates, all of you,--, and to my personal friends;

As it is only the best runners who study and practice, then run still better, so I honor the Japanese Value Engineers who are further increasing their knowledge and their skills in the use of the Techniques of High Value Achievement.

On Oct.30th and 31st, Japanese time, my mind will be attending your meeting with you.

I Wish For You Much Success,

Lawrence D Miles
