Mr. W. A. Sredenschek
Materials & Purchasing Dept.
SCHENECTADY

Dear Sreddie:

This is just a little note to tell you that Larry Miles and Dick Bradshaw put on two bang-up presentations here.

One was to our Production and Purchasing personnel group Meeting, and the other was to about twenty of the key people down at the Range and Water Heater Department, - from the Department Manager and Assistant Manager clear down and including the Purchasing and Production people and designers, manufacturing engineers, planning engineers, etc.

Both Larry and Dick made excellent presentations, and we are off to a grand start with our Value Analysis Program.

Thank you so much for your help.

Sincerely,

George E. Wallin, Jr.
