Mr. A. D. Bentley  
Materials Services  
General Electric Company  
Building 32G  
1 River Rd.  
Schenectady, New York

Dear Al:

Just a few words of sincere appreciation and thanks for the fine talk you gave to our group yesterday. It goes without saying that our people enjoyed it very much and I believe they got a lot out of it. Most of the attendants have thanked me personally for having you come down to present the Value Analysis story.

Off the cuff, I am sure you made a fine impression. I know that Harry Douth is very much pleased and Dr. Roy Abbott asked me about you this morning.

I will be looking forward to seeing you in the near future and all those that know you are coming with our Organization are greatly pleased.

Very truly yours,

F. G. Moloney  
Manager - Materials
