**Ed Reisner, Placement Director, says:**

### Job Placement is Picking Up!

At the end of classes on May 12th more than half of the class reported success in placement. Opportunities for the rest seem to be more plentiful than in other recent years. Of course, we won't *really* know the proportions of the increase until the placement year is complete at the end of 1976. Nevertheless, it is interesting that some large law firms which had extended offers based on fall interviews

are now returning to the law school to seek additional personnel. Positions in Wisconsin outside of Milwaukee and Madison appear to be abundant. The availability of federal funds for the enforcement of support obligations has led to the creation of many new positions with county corporation counsels, county health and social services agencies and district attorneys' offices.

Prospective employers should not be discouraged from approaching the Placement Office at this time. Many outstanding graduates are available for interviews. The Placement Office will be glad to arrange interviews both for full-time positions for 1976 graduates and clerkships for law students."
