NEW BOOKS ON WOMEN, GENDER, & FEMINISM

No. 53, Fall 2008

Scope:

A note to readers: In the Spring 2008 issue (No. 52), we began including selected titles in two new categories: "Masculinity/Men's Studies" and "Lesbian, Gay, Bisexual, Transgender, Intersex, & Queer Studies." Accordingly, we have changed the name of this bibliography from *New Books on Women & Feminism* to *New Books on Women, Gender, & Feminism*.

This bibliography represents a selection of new books (generally fifty or more pages long) and periodicals that have come to our attention primarily from reviews and publishers' announcements and catalogs. For each title, we include all bibliographic information readily available to us. OCLC numbers are listed when we have consulted OCLC (WorldCat) for entry verification. We scan book reviews in a variety of feminist and general periodicals. Those listed as sources for a title arrived earliest in the production cycle for this issue, or provided us with help in establishing subjects. The absence of a source note indicates that we obtained the information primarily from publishers, *Books in Print*, OCLC, or other national catalog searching. The notation LC indicates that the sole source of information was a Library of Congress (LC) record.

New Books on Women, Gender, & Feminism is published twice a year (Spring and Fall). Number 53 (Fall 2008) covers nonfiction, poetry, and dramatic works published primarily during 2007 and 2008, arranged in 32 broad categories. Novels and short story anthologies are not listed in *New Books*, with the following exceptions: rediscovered women writers; English translations; international anthologies; and reissued classics in new academic editions. Each title is listed only once. However, since many books have multiple subjects, a detailed subject index appears at the end of the bibliography, along with an author index. The subject index terms are created for *New Books* by the editor following the practices and sensibilities of *A Woman's Thesaurus*, edited by Mary Ellen S. Capek (New York: Harper & Row, 1989, c.1987). Beginning with Issue 46, we designate country of publication for works published outside the United States, Canada, or the United Kingdom.

The "Periodicals" category includes descriptive annotations of first or sample issues received.

New Books is NOT an accessions list. We cannot guarantee that books listed here are held by the University of Wisconsin libraries. We hope that this bibliography will be used to strengthen library collections and serve researchers and other interested readers in the U.S. and other countries. We encourage researchers unable to obtain a book locally to take advantage of interlibrary loan services. Check your local public or academic library for details.

The *New Books* staff welcomes your suggestions about format, arrangement, and content.

“First, WSI is the best database for indexing of women’s studies journals in terms of number of titles covered, dates of coverage, and number of citations available for each title. Even though the database does not provide full text coverage, Women’s Studies International is a superior database that indexes a large percentage of women’s studies core journals.” *Project Muse — Scholarly Journals Online*, citing Cindy Ingold's review in *LIBRARY TRENDS*, Vol. 56, No. 2, Fall 2007 (“Gender Issues in Information Needs and Services,” edited by Cindy Ingold and Susan E.
